Please read if you have chosen the \$21.00 option for Cap/Tassel/Stole

If you are choosing the \$21 option, you will need to provide your own gown from the 2018 Cooper ceremony. A navy blue gown used in a prior year ceremony (2017 or before) will not match. If you want to exchange a navy blue gown used from 2017 or before you may for one of the same size. The exchange must take place when you pick up your gown in May.

If you have a 2018 gown you will be asked to show it before getting your Cap/Tassel/Stole.

Questions on your credit/debit card order: See general information and contact us on the top right of the site

Sizing information is found under General Information:

GENERAL INFORMATION

- How to Measure
- How to Wear a Gown
- How to Wear a Hood
- How to Wear a Cap
- How to Wear a Complete Regalia
- Order Forms

HOW TO MEASURE

SLEEVE
With your arm slightly bent, measure the length from the center back of your neck to the back of your wrist.

CHEST
This measurement should be taken while wearing any garments you plan to wear under the gown. If you generally wear a suit coat under your gown, wear a coat while being measured.
Measure around the fullest part of your chest, under your arms and around your back.

WAIST
Measure around the least fullest part of the middle part of the body.

CAP or TAM
Place the measuring tape around the widest part of your head, approximately one inch above the ears.

Custom-Tailored Outfits
...require more specific measurements than rental outfits. Complete and accurate sizing information enables us to provide properly fitted garments. Additional information such as jacket, shirt or blouse size, wrist and neck measurements are very helpful.

Souvenir and Rental Outfits
...require less measurements than custom-tailored regalia. Generally, all that is needed is the individual's height and weight.

HEIGHT
Have the individual stand with his or her back to the HEIGHT CHART. Place a ruler on top of the head at right angles to the chart. This gives you the height.

WEIGHT
Weight needs to be a true approximation to ensure a proper fit.

CAP SIZE

HEIGHT CHART

Tape a HEIGHT CHART to the wall. Use a tape measure to properly position the chart.
